Food Studies

Home Learning - 10C

By Mrs J Kerns - Food Studies teacher

Basic learning in Food Studies

In Design and Technology we aim for all pupils to develop understanding and practical expertise through;

- Practical hands on experience with the aim of promoting independence.
- Follow Health and safety rules in practical lessons
- Become familiar with names of equipment and there uses.
- Encourage pupils thinking and allow them to interact and ask questions, tap into their background knowledge, and build new skills.

Learning Task 1 - Food Studies

- Plan a healthy three course meal. Make sure you include food from each section of the Eatwell Guide.

Success criteria

- I have included a starter main meal and a pudding.
- I have included foods from each section of the Eatwell Guide.
- I have included a variety of colours to make the food look appealing

Learning Task 2 - Food Studies

- Research sweet and savoury recipes that would be suitable for vegetarians

Success criteria

- I know what vegetarians can and cannot eat.
- Recipes included foods from each section of the Eatwell Guide.
- Recipes are appealing and include a variety of textures.
- I have researched sweet and savoury foods.

Learning Task 3 - Food Studies

With the help of an adult help prepare the evening meal and clean up afterwards as often as possible.

WJEC Pathways Entry Level 2

Food Preparation, Cooking and serving

- Pupils completing as much practical work at home will help towards the learning objectives of the WJEC qualification and give the pupils confidence to work more independently.
- L.O. 1 Be able to use basic food preparation skills:
 - Use basic food preparation skills when cooking.
 - Weigh and measure food.
- L.O. 2 Be able to select suitable equipment to complete set tasks:
 - Select the correct equipment with guidance.
 - Use equipment safely and hygienically.
- L.O. 3 Be able to cook and serve a selection of dishes.
