# Food Studies Home Learning - 11C

---

By Mrs J Kerns - Food Studies teacher

# Basic learning in Food Studies

---

In Design and Technology we aim for all pupils to develop understanding and practical expertise through;

- Practical hands on experience with the aim of promoting independence.
- Follow Health and safety rules in practical lessons
- Become familiar with names of equipment and there uses.
- Encourage pupils thinking and allow them to interact and ask questions, tap into their background knowledge, and build new skills.

# Learning Task 1 - Food Studies

- Research the difference between a vegan and a vegetarian and make a list of the different foods each group can eat.

# Learning Task 3 - Food Studies

- Research the names of 3 different types of food poisoning and list the symptoms.

# Learning Task 3 - Food Studies

---

With the help of an adult help prepare the evening meal and clean up afterwards as often as possible.

# WJEC Pathways Entry Level 2

## Food Preparation, Cooking and serving

---

- Pupils completing as much practical work at home will help towards the learning objectives of the WJEC qualification and give the pupils confidence to work more independently.
- L.O. 1 Be able to use basic food preparation skills:
  - Use basic food preparation skills when cooking.
  - Weigh and measure food.
- L.O. 2 Be able to select suitable equipment to complete set tasks:
