

**Oakwood Academy**

A Visual Arts, Technology & Sports College

# GARDENING HOME LEARNING

Oakwood Academy Sixth Form College

# BASIC LEARNING IN GARDENING

- ▶ Key learning in Gardening at home can involve pupils:
  - ▶ Planting in the garden
  - ▶ Growing food on the allotment
  - ▶ Working under cover
  - ▶ Wildlife in the garden
  - ▶ Using your produce in the kitchen
  - ▶ Construction in the garden
  - ▶ Art in the garden
  - ▶ Careers in gardening
- 

# LEARNING TASK 1 - GARDENING

- ▶ Art in the garden:

Decorate a range of terracotta pots with paints, mosaics and other adornments. Use them to create a colourful display and take a photograph of your work as a record.

# LEARNING TASK 2 - GARDENING

- ▶ Make a wind chime. You could use materials that you already have (eg shells, lengths of metal pipe) or extend the project by making your own with recyclable objects around the house.

# LEARNING TASK 3 - GARDENING

- Find a recipe to make bird food (eg a fat ball, a seed cake) and make one for your garden area. Keep note of what birds feed from it.

- ▶ Please keep evidence of your work. Each module (PowerPoint) is worth 1 credit towards an ASDAN qualification.
