Dear parents and carers,

Remote learning

Your child's learning is important to us and we want to provide them with an effective remote learning strategy to build upon their learning in school this year and address key gaps in learning considering the school closure. Please find below the information to support your child's education at home.

Remote Learning plans - [see introduction video by clicking here!](#)

Aim of remote learning at Oakwood

- Establish measures that will reduce the effects of being off school and try to minimize missed work across various subjects / qualifications in order to give pupils the best chance to show their full potential when they return to school
- Support pupils physical and social development, and mental wellbeing during school closure

What is the plan for remote learning?

- We would like pupils to engage in daily online lessons via zoom (see example timetable below and please check your child's class page on Class Dojo). This is an opportunity to support pupils progress in each subject area and support pupils wellbeing.
- We would also like pupils to complete the 'home learning menu's' with parents and carers at home. These menu tasks are planned to address curriculum content this year and support learning missed in school

Where can I find the 'home learning menu' for my child?

- All pupils have been issued with a remote learning book which has a paper copy of the home learning menu's stuck on the inside. Further copies can be found on our school website here
