

Oakwood Academy

A Visual Arts, Technology & Sports College

Science- 7a

Basic learning in Science

- ▶ The purpose of science teaching at Oakwood is to develop curiosity, enjoyment, skills and a growing understanding of science through an approach in which pupils raise questions and investigate the world in which they live.
- ▶ **The subject of science** seeks to engage and challenge learners at many levels, linking direct practical experience with scientific ideas. Experimentation and modelling are used to develop and evaluate explanations, encouraging critical and creative thought. Opportunities are planned for pupils to:
 - ▶ Enquire, explore and observe so that they can ask questions about themselves and their environment
 - ▶ Stimulate their curiosity in finding out why things happen in the way they do
 - ▶ Appreciate the way science will affect their future on a personal, national and global level.

Learning Task 1 - Science- 7a

- ▶ Complete a table like the one below.

 Healthy	 Unhealthy

- ▶ Can you name some healthy and unhealthy foods and write the names in the correct column. If you would prefer to draw them you draw the foods.

Learning Task 2 - Science- 7a

- ▶ Here is an example of a lunch box.
- ▶ Can you design your own lunchbox and give examples of some foods you would like to eat for your pack lunch.
- ▶ Can you say if they are healthy or unhealthy?

Learning Task 3 - Science- 7a

- ▶ Think about your favorite tea.
- ▶ Can you list the foods and draw them?:
- ▶ Write a sentence about why this is your favorite tea and whether it is healthy or unhealthy.
