

The Duke of Edinburgh's Award

The award is a globally recognised qualification that is fantastic for the holistic development of young people. Sessions through autumn and winter will primarily be practically based, with pupils frequently attending Salford Waters Sports Centre (Kayaking), The National Cycling Centre (BMX) and The Y Club (Multi-Sports) to develop their physical fitness and their sport-specific skills.

In addition to this, pupils will develop the skills required for hiking and camping through spring to enable them to take part in two overnight expeditions. The first will be a one night overnight stay at the start of summer (year 1), whilst the second will be a two night overnight stay at the start of summer (year 2).

Please see the pictures below as an example of activities we have done in the past...
